NOTICE TO PRINCIPALS

In order to obtain uniformity in the system of attendance recording during the period of the Departmental Examinations in June and to enable Boards to earn their full attendance grant, teachers are asked to comply with the following instructions.

Elementary Schools

In all schools and class rooms not in use for the writing of the High School Entrance examinations, the teaching sessions and the recording of attendance shall continue to the end of June 29th, 1949, as required by the Statutes.

In all schools and class rooms in actual use for the writing of the High School Entrance examinations, attendance shall be recorded for all classes to the end of June 29th, 1949. This includes the Entrance class itself.

Pupils who have been granted Entrance Certificates on the recommendation of the Principal may be permitted to retire from school one week before the beginning of the Entrance Examinations. Attendance shall be credited to them to the end of June 29th, 1949.

Secondary Schools

(1) All Secondary schools with no candidates for the Upper School examinations will continue in session till the statutory date of closing, viz., June 29th, 1949.

(2) Principals of Secondary schools having candidates for the Upper School examinations will carry on the sessions of the lower grades as the exigencies of accommodation and teaching adjustments demand. In such cases, attendance shall be recorded to June 29th, 1949. Credit may also be given for the attendance of those pupils writing on the Upper School examinations.

(3) In all Secondary schools where grades may have been dismissed to accommodate the High School Entrance examinations, credit for attendance of those grades shall be given until June 29th, 1949.

For All Schools

If for any lawful reason the school year varies for different rooms in a school, the average number of teaching days for the entire school shall be derived as in the following example,—

In the case of a ten-roomed school with four rooms in session for 195 days and six rooms for 185 days, the calculation would be,—

4 rooms	for 195 days	=	1 room	for	780 days
6 "	" 185 "	=	1 "	"	1110 "
					1890 days

Therefore, average number of teaching days is $\frac{1890}{10} = 189$.
